Message from Course – Coordinator

Dear Esteemed Faculty Members and Delegates,

It is our great honor to welcome you to the 1st India Anterior Hip Foundation Course (IAHF 2026).

This program has been meticulously designed to deliver a global-standard curriculum, aimed at accelerating your proficiency in the Direct Anterior Approach (DAA) and strengthening your surgical expertise.

Our skill-based, structured learning format focuses on minimizing the learning curve while emphasizing safe, reproducible, and efficient surgical techniques.

At the IAHF Course, we are committed to fostering an ecosystem that promotes innovation, hands-on training, and academic excellence in orthopedic surgery, with the collective support of esteemed international and national faculty, we are confident that this course will provide meaningful insights, practical knowledge, and refined techniques that will significantly enhance your DAA Hip practice.

We look forward to an engaging, enriching, and rewarding learning experience together.

Warm regards,

Dr. Sourav Shukla (Course Co- Coordinator)

India Anterior Hip Foundation Course (IAHF 2026)

Course Objectives:

Upon completion of the IAHF Course, participants will be able to:

- Define the anatomy and exposure relevant to the Direct Anterior Approach (DAA) and its implications
- Explain the differences in orientation between Posterior and Anterior Approaches to the Hip
- Understand patient selection criteria for the first 50 cases of DAA
- Describe the stepwise capsular releases required for femoral preparation
- Manage basic intra-operative challenges during the first 50 cases of DAA

These objectives are designed to equip participants with the knowledge and skills necessary to confidently perform DAA hip replacements.
